\* Captive Generating Plants (CGP) commissioned before 1st April 2016 , Shall have RPO target applicable for FY 2015-16, which is 1.00 % Solar and 6.25% Non-solar (i.e. for current year other-RPO-7.25%).

# Please Attach Certificate issued from Chief Boiler Inspector for WHRB.

\*\* For Biomass Co-firing, please refer CSERC's Notification No. 97/CSERC/2022 (First Amendment) mentioned that" for all coal based thermal power plant of power generation utilities with bowl mill, ball & rice mill and ball & tube mills have to use mandatorily 5% blend of biomass pellets on an annual basis".

\*\*\* The Energy Storage Obligation shall be treated as fulfilled only when at least 85% of the total energy stored in the Energy Storage System (ESS), on an annual basis, is procured from renewable energy sources. The Energy Storage Obligation to the extent of energy stored from RE sources shall be considered as a part of fulfilment of the "Total RPO".
